

CelVivo is a leading life science start up. Founded in Denmark, CelVivo develops and sells products for culturing cells in 3D. Our technology is disruptive and cell models grown with our technology have shown unparalleled resemblance with *in vivo* conditions.

To educate our customers, distributors, and partners in our technology, we are hiring a:

Customer Success Application Specialist (East Coast)

Responsibilities:

- Provide scientific support for our stakeholders regarding 3D cell culturing.
- Product demos and training of customers and distribution partners.
- Support distributors with joint visits and installations/training at customer sites.
- Participate in conferences in North America.
- Be an integral part of CelVivo's sales, support, and development team.
- Assist in creating marketing material for customers and distributors.

Profile:

- Degree in natural sciences (cell biology, molecular biology or similar) with further commercial qualification.
- Professional experience in a comparable support position in the life science, chemical, medical, or diagnostic markets.
- Excellent ability to communicate and educate.
- Ability to thrive in a non-hierarchical and developing organization.
- Based on the East Coast with flexibility and willingness to travel within the States. Occasional travels to the EU.

Benefits:

- Remote work option.
- Healthcare, Dental, and 401k plans.
- Competitive Salary.
- Life and Disability Insurance.
